

# Module 3 HTML Document

F. T .M. McKay

November 10, 2020

## Contents

<b>Module 3 - HTML Document</b>	<b>1</b>
R Markdown . . . . .	1
Including Plots . . . . .	2
A short list . . . . .	3
A simple equation . . . . .	3

## Module 3 - HTML Document

### R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

### Plot of the Cars Dataset

```
plot(cars)
```

## Including Plots

You can also embed plots, for example:

## Plot of the Pressure Dataset

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.

## A short list

- apples
- bananas
- oranges

## A simple equation

$$Y = \beta_0 + \beta_1 * X$$
